

Team Passfinders Product Checklist

- The project has been deployed to Heroku and the website that we have developed can be found at: <https://citrus-contact.herokuapp.com/>
- Citrus app was handed over to the client on 18/10 with finer details of the handover meeting that occurred recorded as part of the week 12 submission.
- The client was given ownership of the Citrus App Github repository which, in addition to allowing them to fully access our codebase, enables them to see all documentation (exported from Confluence) that was created as the project was being rolled out and gives them full access to configuration details in the README file.
